RECONSTRUCTION

The States of Virginia, Mississippi, and Texas have been restored to representation in our national councils. Georgia, the only State now without representation, may confidently be expected to take her place there also at the beginning of the new year, and then, let us hope, will be completed the work of reconstruction, with an acquiescence, on the part of the whole people, in the national obligation to pay the public debt created at the price of our union. The pensions to our disabled soldiers and sailors, and their widows and orphans, and in the changes to the Constitution which have been made necessary by a great rebellion. There is no reason why we should not advance in national prosperity and happiness as no other nation ever did after so protracted and devastating a war.

THE EUROPEAN WAR.

Soon after the existing war broke out in Europe, the protection of the United States Minister in Paris was invoked in favor of the North Germans domiciled on French territory. Instruction were issued to grant the protection. This has been followed by an extension of American protection to citizens of Saxony, Hesse, and Saxe-Coburg-Gotha, Columbia, Portugal, Uruguary, the Dominican Republic, Ecuador, Chili, Paraguay, and Venezuela, in Paris. The charge was an onerous one, requiring constant, severe labor, as well as the exercise of patience, to produce a good judgment. It has been performed to the entire satisfaction of this government, and, as I am officially informed, equally so to the satisfaction of the government of North Germany. As soon as I learned that a republic had been proclaimed at Paris, and that the people of France had acquiesced in the change of the government, the Minister of the United States was directed by telegraph to recognize and to tender to them my congratulations and those of the people of the United States. The re-establisment in France of a system of government disconnected with the dynasty traditions of Europe appeared to be a proper subject for the felicitations of Americans.

Should the present struggle result in attaching the hearts of the French to our simpler forms of representative government, it will be a subject of still further satisfaction to our people. While we make no effort to impose our institutions upon the inhabitants of other countries, and while we adhere to our traditional neutrality in civil contests elsewhere, we cannot be indifferent to the spread of American political ideas in a great and highly civilized country like France. We were asked by the new government to use our good offices jointly with those of European powers in the interests of peace. Our answer was made that, the established policy of the United States forbade them to interfere in European questions jointly with the European powers.

SPAIN AND CUBA.

It is understood that the condition of the insurrection in Cuba, has materially changed since the close of the last session of Congress. In an early stage of the contest, the authorities of Spain inaugurated a system of arbitrary arrests, of close confinement, and of military trial and execution of prisoners suspected of complicity with the insurgents, and of summary embargo of them and their properties, and the sequestration of their resources by executive warrant. Such proceedings so far as they affected the persons or property of citizens of the United States, were in violation of the provisions of the treaty of 1795, between the United States and Spain. Representations of injuries resulting to several persons claiming to be citizens of the United States, by reason of such violations, were made to the Spanish government from April 1869, to June last. The Spanish Minister at Washington had been clothed with a limited power to aid in redressing such wrongs. That power was found to be withdrawen, in view, as it was said, of the favorable situation in which Cuba then was, which, however, did not lead to a revocation or suspension of the extraordinary and arbitrary functions exercised by the Executive power in Cuba, and we were obliged to make our complaints at Madrid.

In the negotiations thus opened, and still pending, the United States only claimed that for the future the rights secured to their citizens by treaty should be respected in Cuba, and, that as to the past, a joint tribunal should be established in the United States, with full jurisdiction over all such claims.

The long deferred peace conference between Spain and the allied South American republic has been inaugurated in Washington under the auspices of the United States.

The time is probably not far distant, when in the natural course of events, the European political connection with this continent will cease. Our policy should be shaped in view of this probability, so as to ally the commercial interests of the Spanish American States more closely to our own, and thus give the United States the pre-eminence, and all the advantage which Mr. Monroe, Mr. Adams and Mr. Clay, contemplated when they proposed to join in the congress of Panama.

SAN DOMINGO.

The acquisition of San Domingo is an adherence to the Monroe doctrine. It is a measure of national protection. It is asserting our just claim to a controlling influence over the great commercial traffic, soon to flow from west to east by way of the Isthmus of Darien.

It is to build up our merchant marine. It is to furnish new markets for the products of our farms, shops, and manufactories. It is to make slavery insupportable in Cuba and Porto Rico, at once and ultimately so in Brazil. It is to settle the unhappy condition of Cuba, and end the exterminating conflict.

In view of the importance of this question, I earnestly urge upon Congress early action expressive of its views as to the best means of acquiring San Domingo. My suggestion is that by joint resolution of the two houses of Congress, the Executive be authorized to appoint a commission, to negotiate a treaty with the authorities of San Domingo, for the acquisition of that island, and that an appropriation be made to defray the expenses of such a commission. The question may then be determined either by the action of the two houses of Congress, upon a resolution of annexation, as in the case of the acquisition of Texas.

So convinced am I of the advantages to flow from the acquisition of San Domingo, and the great disadvantages, I might almost say calamities, to flow from non-acquisition, that I believe the subject has only to be investigated to be approved.

THE SLAVE TRADE.

It is believed that the slave trade is now confined to the estern coast of Africa, whence the slaves are taken to Arabian markets. The ratification of the naturalization convention between Great Britain and the United States, have also been exchanged during the recess; and thus a long dispute between the two governments has been settled in accordance with the principles always contended for by the United States.

GREAT BRITAIN.

In April last, while engaged in locating a military reservation near Pembina, a corps of engineers discovered, that the commonly received boundary line between the United States and the British possessions, at that place, is about 4,700 feet south of the true positions of the 49th parallel.

That the line when run on what is now supposed to be the true position of that parallel, would leave part of Hudson's Bay Company at Pembina, within the territory of the United States. This information being communicated to the British Government, I was requested to consent, and did consent to that British occupation of the part of Hudson's Bay Company should continue for the present.

I deem it important, however, that this part of the boundary line should be definitely fixed by a joint commission of the two governments, and I submit therewith estimates of the expense of such a commission on the part of the United States, and recommend that an appropriation be made for that purpose. The land boundary has already been fixed, and marked from the summit of the Rocky Mountains to the Georgian Bay.

It should now be in like manner marked from the Lake of the Woods to the summit of the Rocky Mountains. I regret to say that no conclusion has been reached for the adjustment of the claims against Great Britain, growing out of the course adopted by that government during the rebellion.

The cabinet of London, so far as its views have been expressed, does not appear to be willing to concede that Her Majesty's Government was guilty of any negligence, or did or permitted any act, during the war, by which the United States has just complaint. Our firm and unalterable convictions are directly the reverse. I therefore recommend to Congress to authorize the appointment of a commission to take proof of the amounts and ownership of these claims on notice to the representative of Her Majesty at Washington, and that authority be given for the settlement of these claims by the United States, so that the government shall have the ownership of the private claims, as well as the responsible control of all the demands against Great Britain. It cannot be necessary to add, that whenever her majesty's government shall entertain a desire for a full and friendly adjustment of these claims, the United States will enter upon their consideration with an earnest desire for a conclusion consistent with the honor and dignity of both nations.

The course pursued by the Canadian authorities, towards the fishermen of the United States, during the past season, has not been marked by a friendly feeling. By the first article of the Convention of 1818, between Great Britain and the United States, it was agreed that the inhabitants of the United States should have forever in common with their subjects, the right of taking fish in certain waters therein defined. In the waters not included in the limits named in the convention within three miles of parts of the British coast, it has been the custom for many years to give to intruding fishermen of the United States, a reasonable warning of their violation of the technical rights of Great Britain.

The Imperial government is understood to have delegated the whole as a share of its jurisdiction, a control of these in-shore fishing grounds to the colonial authority known as the Dominion of Canada, and this semi-independent, but irresponsible agent, has exercised its delegated honors in an unfriendly way.

Vessels have been seized without notice or warning, in violation of the custom previously prevailing, and have been taken into the colonial ports, their voyages broken up and the vessel condemned.

There is reason to believe that this unfriendly and vexatious treatment was designed to bear harshly upon the hardy fishermen of the United States, with a view to political effect upon this government. The statutes of the Dominion of Canada assume a still broader and more untenable jurisdiction over the vessels of the United States.

They authorize officers or persons to bring vessels hovering within three miles of any of the coasts, bays, creeks or harbors of Canada, into port, to search the cargo, to examine the master, on oath, touching the cargo and voyage, and to inflict upon him a heavy pecuniary penalty if true answers are not given, and if such a vessel is found preparing to fish within three marine miles of any such coasts, bays, creeks or harbors without a license, or after the expiration of the period named in the last license granted

### MONEY? MONEY??

Yes, money. We know it is scarce; but we cannot get along without it. If every person who owes us for subscription, job work or advertising will punctually pay the amount due us, it will enable us to punctually pay our workmen, paper bills &c., &c.

We are sending out bills to every person who owes us, and we have also sent out an Agent Mr. J. D. Mitchell of Milesburg. He will call personally upon all, he can reach between this and the Holidays. We hope he will be very successful in collecting money and receiving new subscribers.

We hope those of our patrons, who receive their bills through the mail will remit without delay. We cannot run the REPUBLICAN without money, and the better our readers pay up, the better and stronger and spicier we can make it.

We have a large number of subscribers, who always pay in advance. We sincerely hope these will all renew their subscriptions, and induce others to subscribe. We have a great work to do, but we can only accomplish it through money and the hearty co-operation of our readers. We hope all will see the propriety and justice of paying up at once.

The first number of the *Young Folk's Rural* is received. It is a fine looking sheet of eight pages, the largest of the young people's papers, full of entertaining matter—good stories, dialogues and pieces for school exercises, pictures, etc. It is designed to cultivate a taste for Rural life. $1.60 per year; single numbers, ten cents. Published by H. N. F. Lewis, pub. *Western Rural*, Chicago, Ill.

---

FREE TRADE ILLUSTRATED.—One of the best illustrations of Free Trade, political economy, we have seen, says the Williamsport *Gazette & Bulletin*, is the simple illustration of selling the skins of animals to England for ten cents, and paying them twenty cents for the tails when they are sent back to this country. "Revenue reformers" and free trade leagues may write volemes of words on the subject, but they cannot answer this homely, but plain illustration.

REPORT OF COMMISSIONER DELANO.—The report of Mr. Delano, as Commissioner of Internal Revenue, is published. It is a plain, able document. It favors retaining the tax on spirits, and making the tax on all tobaccos uniform. It criticises the tax bill, and urges reconsideration of it that greater efficiency may be attained. In conclusion, Mr. Delano compares the present condition of the revenue with its condition under Johnson's administration. There has been an increase of almost $50,000,000 on the gross receipts, and this with taxation greatly reduced. With the same sources of revenue, it is shown the comparison would be $101,888,077 13 in favor of General Grant's administration. These results show increasing efficiency in the collection of the revenues, which is encouraging, but no more than the supporters of the administration have expected.

### CONGRESS.

The third session of the forty-second Congress of the United States, assembled in Washington, on Monday, the 6th inst., and has went to work with a will as though they meant business. Already members have introduced bills looking to the welfare of all the interests of this great nation, and the people thereof. From present appearances, it will be the best working session that has been held for a long time.

Many of our party, heretofore, have felt inclined to complain of the dilatoryness shown by our congressmen in attending to the pressing necessities of their constituents and country. The members having had a vacation, during which they have, more or less, mingled with the masses, are now better prepared than heretofore to render justice to all the interests of the public.

The tariff, ship building and the currency, are already receiving that attention which they deserve, and if those who were inclined to complain at the acts, or rather the omissions, of the last congress will have a little more patience; when this Congress adjourns they will feel like thanking their God that there was in the year 1870 a Republican Congress, for we can safely assure them, that everything that can be done by that body to foster and promote the prosperity of the country and its citizens, will be accomplished by this Congress.

### THE EUROPEAN WAR.

The great series of battles that were raging around Paris, when last week's edition of the *Republican* went to press, resulted in a general defeat of the French forces, who were compelled to seek safety within the walls of the city. This defeat seals the fate of Paris, and consequently the fate of the new-born French Republic.

Latest advices from the American Minister, at Paris, state that the city will not be able to hold out much longer and that its capitulation, in all probability, will take place within three weeks, as further successful operations on the part of the besieged are out of the question.

The army of the Loire, which the Parisians relied on for relief, is held, as in a vice, by the German General Von Tann, and as soon as Paris falls, the army of the Loire will be as completely crushed as was the French army at Sedan and that will end the life of the present French Republic.

What the next deal of cards will bring forth, it is impossible for us, at this distance from the scene, to accurately foretel. King William made war against an Empire, but so soon as he had vanquished it, and made its Chief a prisoner, a Republic sprang into existence from the ruins of the Empire, the very power that he least anticipated and which he most feared, and if it had been successful would have been fatal to his own Crown.

We wait with some solicitude for the capitulation of Paris and the destruction of the army of the Loire, to see what will be the next move on the Kingly chess board of Europe.

FLORIDA.

The last accounts from this State are that the democratic candidates for Congress and Lieutenant Governor have been elected by from two to three hundred majority, and that the democrats have a clear majority, not counting independents, of from five to six in the House and one or two in the Senate.

KENTUCKY.

The total Democratic vote of the State on Congressmen is 90,171; Republican vote 57,026. Democratic majority, 33,145.

NEW JERSEY.

The official return of the vote by congressional districts is Republican, 80,245; Democratic vote, 77,313. The Republicans elected three congressmen out of the five.

ARKANSAS.

The official returns are not all in yet, but enough have been received to form a correct estimate. The House will have a Republican majority of 24; the Senate a Republican majority of 12. This insures the election of a U. S. Senator. The Republicans also elected a majority of the congressional delegation.

FLORIDA.

The official vote of the State gives Harvey, Rep., for Governor, 36,420 votes, and Sharp, 19,185; majority for Harvey, 17,244. Lowe, for Congress, received 36,563 votes, and Foster 19,542; majority for Lowe, 17,024.

ARIZONA.

A Los Angeles telegram says: "The latest returns from the Arizona election give Brady, democrat, a majority for Congress.

### JOHN SURRAT.

John Surratt, the Chief conspirator in murdering President Lincoln, and who only escaped the gallows because the leaders of the Republican party had not back bone sufficient to carry out the law and hang him, has started out on a lecturing tour. His subject is the attempted abduction of Abraham Lincoln. He delivered his first lecture in Rockville Md., to quite a full house and was repeatedly cheered by the rabble. He repeated the lecture the other night at the Cooper Institute N. Y., to an audience neither large nor respectable. In speaking of this lecture the New York *Standard*, a Democratic journal says:

"No condemnation of such lectures can be too severe. They are hideous in every aspect in which we may choose to view them;" and we sincerely trust that this is the last notice we shall ever have occasion to take of the rebel conspirator who "assisted to hatch a plot" which, falling in its original purpose, ended in a bloody episode which shocked the civilized world and filled the hearts of a whole nation with the most profound sorrow."

Now we are fully convinced that "two wrongs never make one right" but it is equally true that such an unmitigated scoundrel and murderer, should not be permitted to run at large, much less to insult the loyal American people, by delivering lectures, in which he glories in his own shame. We hope if he thus continues to insult our people, by delivering this lecture, that some one armed or one legged soldier will shoot him dead on the rostrum.

TRUE AS GOSPEL.—Should we not say, rather, the true gospel, the few closing words of James Parton, in his article on "Artemas Ward." They are as follows:

He was not a deep drinker. He was not a man of strong appetites. It was the nights wasted in convivality which his system needed for sleep, that sent him to his grave forty years before his time. For men of his position and cast of character, for all editors, literary men and artists, there is only one safety—tectotalism. He should have taken the advice of a stage driver on the Plains, to whom he once offered some whiskey; and I recommend it strongly to the countless hosts who see this paper every week:

"I don't drink. I won't drink! And I don't like to see any body else drink. I'm of the opinion of those mountains—*keep your top cool*. They've got snow, and I've got brains; that's all the difference."

NO HUMBUG.—We do not wish to infrom you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures all diseases of mind, body or estate, and is destined to make our subunnary sphere a blissful Paradise, to which Heaven itself shall be but a side show, but we do wish to inform you that Dr. Sage's Catarrh Remedy has cured thousands of cases of Catarrh in its worst forms and stages, and the proprietor will pay $500 for a case of this loathsome disease which he cannot cure. It may be procured by mail for sixty cents, by addressing R. V. Pierce, M. D., Buffalo, N. Y. For sale at Drug Store. Dr. Pierce's private Government Revenue Stamp is on each package of the genuine.

---

THE Washington *Patriot* makes a pitiful appeal to all Democratic Congressmen to reduce the army at the coming session, on the ground that troops have been used at the recent elections. The American people do not yet forget a similar strain in which organs of the same party indulged during the early months of '61, and from that time on to the close of the war. They not only denounced the war, but the Northern troops who gave their life to it. And they are perfectly consistent now when they denounce the military arm of the Government for preserving the liberty then won.

## LOCAL ITEMS.

Late hours are apt to lead either to matrimony or the penitentiary. Reflect over it, young men.

On the 1st of October 1870 there was in circulation $299,729,879 of National Bank notes in the States and Territories.

On the 22d of December there will be a total eclipse of the sun, visible in Europe, Asia and Africa. We can't see it.

Some careful man has ascertained that the average head contains 130,000 hairs. The average moustache contains about 14.

Our mild fall enables the farmers to pasture their cattle much later than usual, thus making a large saving in the matter of hay.

December's delicious dreamy dove-like days start the season of winter with spring-like sunbeams instead of snows and storms.

Theatrical.—We learn that the young people of this place are organizing a theatrical troupe and will exhibit about the Hollidays.

Dr. Belford will be found in his office. He intends to remain two weeks. If you want good Dental work done give him a call.

Seriously Ill.—Mr. Smith Barnhart, a citizen of this place, has been lying very low with the typhoid fever for the last three or four weeks.

Errata.—On the first page of this paper will be found the "President's message to the 42d session." It should read to the 41st Congress—3d Session.

Money is letting up a little, but continue tight. Pay what you owe so that your neighbor can pay his debts too, and so on until it goes all around.

Convicted.—Last week at the Court of quarter Sessions in Williamsport Lloyd Britton was convicted of murdering Jacob Ray, and will probably be hung.

It comes as natural for ladies to say elegant, splendid, beautiful, and all that, as it does for a man wearing a wig to scratch his head, and it signifies about as much.

Cummings House.—A change in the proprietorship of this hotel took place yesterday, James Lipton retiring and W. D. Rikard, again took charge. The "Cummings" is a popular hotel.

Children are not so well behaved since the mothers have taken to wearing high buttoned boots. This is supposed to be a jest on the disuse of slippers for spanking purposes.

Hunting Deer.—Sportsmen should bear in mind, that according to an act passed, April 5, 1870, by the Pennsylvania Legislature, deer hunting is prohibited on and after the 20th of December of each year.

The wittiest, the funniest, the most entertaining and popular lecture on the Stage is Josh Billings. Don't miss hearing his world renowned lecture on Milk, to be delivered at Reynolds' Hall Monday evening the 19th inst.

Price of Marketing.—Pork by the "whole hog" is selling in this place at nine cents per pound, beef by the side about the same, turkeys ten cents per lb., live weight; chickens from 25 to 30 cents each, and butter at 35 cents per pound.

Politeness.—Polished politeness is always the marks of a true lady or gentleman. A gentleman when escorting a lady to church never carries his hands in his pantaloon pockets. Such an escorting was seen on Allegheny street last Sunday.

Josh Billings.—Don't forget that Josh Billings, will deliver his celebrated and popular lecture on Milk in Reynolds Hall on next Monday evening, the 19th inst., all who wish to enjoya good laugh, and be edified will not miss this opportunity of hearing Josh.

Discontinued.—The Daily Altoona *Sun* has been discontinued, Mr. Moore, the publisher says that Altoona has not as yet arrived at that stage of progress sufficient to sustain a daily. He proposes to devote his time to the production of a live and wide-awake weekly Journal.

Concert.—Mrs. M. S. Dunham, of this place, we learn from the Tyrone *Herald*, is soon to give a grand concert in Tyrone. From the sucess she has always met with in this place, the Tyrone people will enjoy a rare treat on that occasion. As a musician she has no superior.

Hogs.—Last week E. C. Humes, of this place, butchered twelve hogs which, when dressed, weighed 3,717 pounds. Mr. William Undercoffer, Mr. Hume's farmer, killed six hogs which weighed, when dressed, 1,628 pounds. There certainly is money in raising pork in this county if properly attended to.

Thanks.—Mr. David Rothrock and lady have our thanks for a fine mess of sausage. Mr Rothrock is a prosperous farmer and his estimable lady one of the best of housewives. It is a strange fact nevertheless it is true, that all those people who remember the Printer always succeede in everthing they undertake.

Removal.—Our friend Geo. O'Bryan, the par excellent Furniture man, is about removing his goods to the rooms lately occupied by Irwin & Wilson, two doors above the Post Office, on Allegheny st., where he will be ready to accommodate all who wish to purchase good furniture at low prices. We bespeak for George a liberal share of patronage.

New Furniture Store.—We understand that the Messrs Schroyer & Son, who were recently burnt out in Lock Haven are bringing a new furniture store to Bellefonte. They will locate in the store room under the Bush House previously occupied by O'Bryan & Williams. They are good business men and we commend them to the patronage of the public.

To Farmers.—Every person, old and young are interested in Milk. But no class of persons so directly interested in the subject of milk, its production, care, and manipulation into butter &c., as the Farmers. Then no farmer within possible reach should fail to hear Josh Billings, great scientific lecture on "Milk" next Monday evening the 19th inst., at Reynolds' Hall.

Free of Tax.—Legacies and successions are free of tax since Oct. 1st 1870. Administrators and Executors being in charge of real and personal estate property prior to this date *in transitu* to heirs should make immediate return of it to Jas. H. Rankin, Esq., Assistant Assessor for Centre county, otherwise penalties will accrue.

Special taxes, or license, is continued until may 1st, 1871. Persons now engaging in business must take out their license for the balance of the year. The tax on manufactures, sales and gross receipts of railroads &c., is removed. It is not now required to put stamps on receipts for any amount, and only on promisory notes when the amount exceeds one hundred dollars. The stamps on all checks are continued. If you want your income taxed next year, you must raise it over two thousand dollars.

Theatrical.—Miss Katie Estells' N. Y. Dramatic Company held forth in Reynolds' Hall last night to a paying audience. This is an excellent company and their Acting is of a superior kind. The Company is composed of 24 talented Artistes from the best theatres in New York city. They will continue to amuse and instruct our citizens to-night and to-morrow night. Miss Katie is not only a first class lady but as an Actress, in her line, she is without a rival.

Ingratitude.—We learn from the *Watchman* that the Democratic Sheriff and Prothonotory of this county, have been sending to Philadelphia for their printed blanks. The *Watchman* intimates when they want the support of their party papers to boost them into office again they had better go to Philadelphia and secure their Phila., friends efforts. No person who aspires to office should receive the support of their party papers unless they patronize them.

Cattle Disease.—There is a disease among the cattle of this neighborhood which in many cases have proved fatal The other day our friend Col. D. K. Tate lost a very fine cow from this disease. It has not been definitely determined what disease, is but it is generally believed to be the rinderpest. Wittoch's Radical Rinderpest remedy advertised in another column and for sale at Frank Green's Drug store, is said to be a certain cure.

School Report.—The following is the monthly report of Julian school, No. 1. Huston tp, ending Dec. 6th 1870.—Const H. Cambridge teacher.

Average attendance during month, 45; per centage of attendance, males 81; females 80; Alphabet 8; spelling 37; reading 37; writing 20; mental arithmatic 37. Department good. Parental co-operation very good. Number of visits by parents and others during the month 12.

Another lot of Holiday goods has arrived at Rankins.

Passed Away. Miss Electa Stephens sister of the late Thad P. Stephens, died of brain fever on the 4th inst, at her residence in Half Moon township. Miss Stephens' sickness was caused by mental anguish produced by the loss of her brother. She was 27 years old and greatly beloved by all who were acquainted with her.

Enterprise.—Our friend A. Sternberg still continues to do business at the old stand on Allegheny st. Mr. Sternberg is oneof our most enterprising merchants and it is certainly astonishing how remarkably low he sells goods. He has established his reputation for selling cheap and honest, honorable dealing. Give him a call.

Heavy.—The four hogs of H. P. Harris—Cabinet Maker and Undertaker weighed 1193 lbs. Henry has our thanks for a fine lot of sausages.

A. Sternberger and Wm. Underc offer will also accept our thanks for some of the same. We are living on the best of sausages.

Gold.—We copy the following local item from the Tyrone *Blade*, one of the livest and best local papers published in Blair county:

"A rich man wants a place to deposit his gold before he dies, as he anticipates some fears of its melting should he take it with him."

Derangement of the Bowels.—Judicious use of Speer's "Standard Wine Bitters" in keeping the system in tone and preventing derangement of the bowels is almost beyond belief. Try them, and you will be convinced of the fact. For sale by Druggists.

Bridge.—A new bridge is being built across Spring Creek, at the foot of Lamb street. A bridge at that place has long been needed, and when this one is completed it will not only be an ornamental but a useful structure. Mr. Copeland is the contracter.

New Discovery.—A family man in this place puts up his pickles with but little cost. His wife throws the shadow of her countenance over the barrel, and they are rendered sufficiently sour to keep the whole year. We wonder how he gets his pickels".

Fire.—We learn that the Hotel of Thomas Loughry, at Unionville, this county was destroyed by fire, with all its contents, on last Thursday night, the inmates barely escaping with their lives. We understand there was no insurance on the property.

Examination.—The semi-annuel examination exercises at the Academy, of this place, will commence on Friday of this week and continue the following week. Parents, and friends of the Academy, are cordially invited to be present.

Stealing.—The turkey's about Milesburg have been disappearing lately at nights, without giving notice to their owners. Of course, no one in that moral vineyard would capture or confiscate them to their own use. Ungrateful turkey's.

New Boiler.—The Messers Valentines have been putting in a new boiler at their Forge. It was manufactured out of their own iron by a Williamsport company.

If you would have a desirable head of hair and retain it, use Hall's Vegetable Sicilian Hair Renewer, the most wonderful discovery of modern times.

New Church.—The M. E. Congregation at Curtin's Forge are going to erect a new house of worship. As they possess the necessary vim and enterprise their new house will be a credit to the community.

Exchanged.—Rev. Mr. Mullin exchanged pulpits with Rev. Mr. Wolf, on last Sunday. Both these gentlemen are able and interesting preachers.

What Next.—This is an age of steam, of science and the fine arts, and almost every day developes something new, notwithstanding, it is written that there is "nothing new under the Sun." It is very hard indeed to keep up with the age, and a man must take several periodicals, two or three daily and as many weekly papers as he can possibly find time to read, if he does not want to be dubbed with the unpleasant *sobriquet* of "old fogy." The proof of these remarks is found in the fact that newspapers both secular and religious are multiplying all over the Country and best of all is, are being read and digested by the American people. The Presbyterian, the Methodist, the Reformed, the Lutheran the Baptist, and every other church, or denomination of christians have their "Organ" The Sunday School Union, and the Sunday schools of all the different denominations have their Sunday school papers or Organs." The political parties each publish numerous dailies and weeklies. This is eminently right and proper, and we think they should be well supported.

But this is not enough. Are these papers sufficient to satisfy the inquiring minds of the christian and politician? It would seem not, for almost every day we hear of new papers, being started, others in contemplation. Now we would suggest, that each of the churches in this place, the Presbyterian, the Methodist, the Episcopalian, the Reformed, the Lutheran and the Catholic Church all, each and every one, should at once make arrangements to start a new paper of their own, so as to be perfectly independent of their respective church organs and for the double purpose of showing how rich, wealthy and pious they are.

We would also suggest, that there should be several more political papers started in this county. It would cause more harmony, especially if they should be started in the interest of the Republican organization. There are three Republican papers in Huntingdon county, and the Democracy carried the county in part. It would we think be a capital idea to have a Republican paper started in Milesburg, Howard, Unionville, Boalsburg, Pinegrove and perhaps one at Lemont. There should also be two or three job offices started in Bellefonte. This would help us along prodigously, and enable us as the "organ" of the Republican party, to give our people a first class paper, (if the Sheriff did not sell us out) and redeem our county from Democratic misrule.

We were led to these remarks upon learning that the Y. M. C. A., or the S. S. Union of this place were about to start a new paper in connection with a job office in this Borough. Now, this is a free country and people have a right to do as they please, so long as they do not infringe upon the rights of others; but what is to be gained by this new arrangement, to either the Y. M. C. A., or the S. S. Union? Nearly all christians are Republicans. Few Democrats go into the Y. M. C. A. or into the S. S. Union. Neither organization suits their tastes or habits. As a general rule, they neither fear God nor regard man. Is it this class of men you expect to reach through the new paper? The idea is preposterous.

But seriously friends. Our party is in a minority in this county. We get no county printing. We need all the advertising, job work and subscriptions we can get, in order to give you a first class paper. This we think we are doing, and we propose to do better just so fast as we can obtain the means and support to warrant us in further outlays. We have labored to treat all Republicans well, and we shall continue to do so; but we do say most emphatically that we will give our support or influence political or otherwise to no man or set of men who are constantly laboring to start some new project to cripple us in our business and influence.

We solicit the patron age of every Republican and business man in the county and assure the Democratic merchants and others that it will pay them well to advertise in our columns, while to the Y. M. C. A. and S. S. Union we say, we will continue to publish your reports free of charge as we have heretofore been doing. We must gentlemen all hang together if we would route out this God forsaken Democracy. And moreover we think the Republicans of Centre have been sufficiently swindled by the different newspaper changes in this county within the past two years.

### THIRD

Lecture of the Y. M. C. A. Course—Josh Billings Monday evening December 19th, 1870, at Reynolds' Hall.

It is as certain as anything can be that Josh Billings will

at the appointed time on the very important subject of Milk. Every person has heard

### OF THE

fun loving and fun making Josh Billings. They have heard of his great lecture on Milk and what he has to say of

### YOUNG MEN'S

indulging in anything stronger than Milk. He has also won a fair reputation, for being a good advisor of what every

### CHRISTIAN

should drink instead of intoxicating liquors, and Josh says, that invariably in all their pleasant pass times, or in what ever

### ASSOCIATION

they may be found, they should drink nothing stronger than Milk! Milk he says is good for babies and of

### COURSE

he argues that it must be good for young and old, male and female. Farmers, Mechanics, Working men, Lawyers, Doctors, everybody come and hear Josh Billings on Milk. It is reported that Josh himself mixes milk with his whiskey, believing in a Gin and Milk philosophy if not in a Gin and Milk Theology. This may be true or false, we do not know; but every body should go and hear him for themselves.

That Ball.—The grand Christmas Ball to take place in Bush's Hall on Friday evening before christmas, promises to excel anything of the kind that ever came off in this place. Parties from a distance, have already secured tickets, as well as a large number of gentlemen in this place and vicinity.

"On with the giddy dance,
Let joy be unconfined,"

will be the inspiration of the evening. The gay and the beautiful will be there to add their charms to the christmas festivities. The ball will be under the superintendance of Geo. F. Ronlas, the affable Proprietor of the Big Spring Eating House.

Bitten.—The Philipsburg *Journal* says a man by the name of T. Howells, residing at Point Lookout, was dangerously bitten by a hog, on Monday, while endeavoring to take a pig from the same pen.

Cooking and Temperance.—The following essay was read by a lady, of this place, at the last monthly meeting of the Centre County Temperance Society:

The agitation of this subject of late years has awakened thought among all classes. Woman in years gone by standing aloof, is now brought face to face with a question she finds herself connected with, a question with which she has to do, whether it be considered as belonging to her department or not. Has not the mother much to do with the moulding of the child's character? And if she be a christian mother, true and faithful to her charge, she has indeed a work to do, a department to fill. It behooves us then as mothers, wives and sisters to look well to, our influence in the family circle, and here this subject at once meets us. We are alarmed at the tide of intemperance now so fearfully spreading over our land and it may be said; "What can a woman do to stem such a tide?" She may not be able to go forth and battle with this evil now so publicly acknowledged, but she can look within and see where in our homes and aroound our firesides, we can use our influence to save the young christians. We are now becoming alarmed not only because of the use of wine in the social circle, but far back of that we find the taste awakned and cultivated at the family table by the introduction of brandy and wine into pies, puddings and sauces, with the blind belief that no harm is done, no taste fostered for that which they think legitimately belongs to the bar room and the saloon. How short the vision of such a mother or sister and how fearful the awakening to a true sense of the temptation they are blindly placing in the hands of those dear to them as life itself. Could the women of our land become sensible to their influence here, soon the effect would become apparent in our midst. As soon place the drugs of a slow poison in the cup of a child, as teach it in the palatable form of a pie, pudding or sauce to love that which destroys both soul and body. Take a glass, it will not intoxicate, I made it myself, it will do you good, is the language of a young lady to a gentleman friend, and to encourage him she teaches him by example how easy it is to take.

Oh thoghtless one, see the victim of your persuasion now, he needs no urgency, the appetite has grown strong and craves satisfaction. Where was his taste awakened? Woman has to do with this subject, let her victuals be made palatable by careful preparation, flavored by the atmosphere of temperance in eating, and christian digestion will not need the use of stimulants to help nature perform her past. Your children will grow up with no lingering desire for something stronger than is found under the parental roof. Our young ladies are here called upon to act, instead of helping on the destroyer by your indifference, be watchful that your influence is not only directly but openly against the use of liquor in any form, more than this, our sex is here in danger of becoming victims themselves to its power. Is it not time that all she eases the use of it in cooking? When her sanctified influence embodies so much that makes home under Gods grace the place on earth nearest Heaven? Let us then begin here and see that our tables are spread with healthful food prepared if not by ourselves under our own careful christian oversight, feeding not the false appetite but the healthy cravings of nature by that which our Heavenly Father designs, we should feed upon, and let it not be said, that our husbands, sons and brothers are educated in intemperance by our own hands and go forth from our homes fitted and eager to feed the desire formed and nourished at our own tables. Even in this day of anxiety for the youth of our families you find the home made wine a favorite in many households.

Yes even where the family alter has long been established and the daily prayer goes up "lead us not into temptation but deliver us from evil," this example is not merely on the side of them who abstain from all appearance of evil, and may it not be that their hindrances do much to retard the progress of temperance in our midst and feed the appetite, slight it may be at first, but at last so powerful that the combined force of family influence, the tenderest affection of those once near and dear, nothing but the influence of the spirit sent from the bosom of the Father can overcome. Let us then think of these things as coming within our influence, and banish the use of all liqurr, whether it be in cooking or in the use of wine made by our own hands, careful in our example and earnest in prayer for the tempted. Surely each woman has a work here that none other can do.

Influence of the Bellefonte Republican.—In the Republican of Oct. 26, 1870, we suggested to the Principal of our Public Schools the propriety of publishing monthly reports, also the names of all scholars who were not absent from school a day during the month and were not "tardy." The Principal acting upon our suggestion published such a report for November in the last *Watchman*.

In another number of the Republican we advertised a peculiar kind of cooking stove for Isaac Haupt. Two days after our paper was published, a subscriber saw the advertisement, and wishing just such a stove, rode over 20 miles and purchased it from Mr. Haupt, paying the cash. The sale of that kind of stoves, by Mr. Haupt, has been increasing ever since.

In our last number we noticed the construction of a new non-freezing pump, which Messrs. Baily & Jarves of this place have for sale. The same morning that our paper was published a gentleman who was stopping at one of our hotels, saw the notice in the paper, immediately examined the pump, and purchased it.

Persons having anything for sale, or those wishing to have their ideas or suggestions adopted, can find no better medium through which to make their wishes, or thoughts known to the public, than the columns of this paper, which is circulated in twenty four hundred families in this and adjoining counties.

Sabbath School Institute.—The third session of the Harris township Sabbatff School Institute was held on Saturday Dec. 3, 1870, at the Branch Church. The following questions were proposed and ably discussed by Prof. Dresher, Prof. McKee, Dr. Vanvalzah, John Hamilton, Wm. Thompson Jr., and others, viz: Should a portion of each lesson of Sabbath School be devoted to general instruction? Should the subject of temperance be made a prominent feature in our Sabbath Schools, and if so, how can it best be done? How can Union Schools be conducted to secure the best good? How can the uniform system of lessons be used in schools where teachers meetings are impracticable? The temperance question elicited much discussion and resulted in the appointm ent of a committee to consider a feasible plan of bringing the matter permanently before our Sabbath schools, and report the same to the Institute at its next meeting, which is to be held in Shingletown on the 4th of March next. This session of the Institute was attended by quite a number of the citizens of the neighborhood, though we are sorry to say, all the schools were not represented. The cause is a good one and every school in the township should be represented at these institutes.

The $12 Lever Watch, No 13,569, purchased from Chas. P. Norton & Co. 86 Nassau-street New-York, January 5th, has been carried by me over six months, with a total variation in time of only 26 seconds, without the slightest regulating, and presents the same brilliancy of color as when purchased.

JAMES R. WILTON,
Sec. American S. M. Co. N. Y.
New-York, July 30th, 1870.

I have for the past eight months, constantly used one of the $15 Norton, Oride Gold Lever Watches, manufactured by Chas. P. Norton & Co. 86 Nassau-Street, New-York, and found the total variation in its time but one half minute, (30 seconds), and it retains the same appearance of gold as when purchased. Several of our men use them with the same results. I cheerfully recommend them for correctness and wear.

The Five Dollar Sewing Machine purchased by me, January, 1870, from the Family Sewing Machine Company, 707 Broadway, N. Y. has been in almost constant use ever since. It has not been out of order once. Has cost nothing for repairs, and I find it simple, and reliable in operation, and always ready to sew. Those friends of mine who use them with the new improvements are very much pleased. The one I have I would not part with.

COMPLETION OF THE PACIFIC RAILROAD.

GREAT RUSH TO STERNBERG'S.

Sung to the tune of Yankee Doodle.

The Great Pacific Railroad's laid,
From ocean unto ocean,
And now complete connections made,
An enterprising notion.

The mighty work at last is done,
So speedy and brisk, oh!
And now in ten days we can run
From here to San Francisco.

No more we take the ancient route,
The stage, a horrid slow thing;
It banged the passengers about
And wore out all their clothing.

CHORUS, for the end of each verse:

The Great Pacific Railroad laid,
From ocean unto ocean,
And we buy clothes from A. STERNBERG,
A most delightful notion.

Through passengers by the Pacific Railroad will call at the store of A. Sternberg, before starting, and provide themselves with a complete outfit of Spring and Summer clothing, the very best assortment of which will always be found at A. Sternberg's Store.
People who travel by other routes, and also people who, instead of travelling by any route at all, prefer to stay at home, can find the most superior and seasonable garments, for every occasion, of every variety, and at the lowest prices.
Do not fail to call and examine our stock before purchasing elsewhere; if you do not, we are sure you will be sorry that you did not. Our goods are put down to the lowest figure. We sell whole suits, according to quality.
RANGING FROM $6.75 to $18.00
the very best.

# MANHOOD

**In the Young and Rising Generation.**

The vegetative powers of life are strong, but in a few years how often the pallid hue, the lackjustre eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwards upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it fed on; the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

# HELMBOLD'S
# EXTRACT BUCHU

For Weakness arising from excesses or early indiscretion, attended with the following symptoms: Indisposition to exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision Langour, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of attention, Great Mobility, Restlessness, with Horror of Society. Nothing more desirable to such patients than Solitude, and nothing they more dread, for Fear of Themselves; no Repose of Manner, no Earnestness, no Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on—which this Medicine invariably removes—soon follow Loss of Power, Fatuity, and Epileptic Fits, in one of which the patient may expire.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases Insanity and Consumption! The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan Despair
Low sullen sounds their grief beguiled."

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

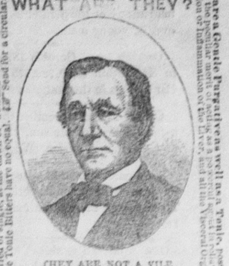
**The Great Medical Discovery!**
Dr. WALKER'S CALIFORNIA
# VINEGAR BITTERS,
Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.
WHAT ARE THEY?



They are a Gentle Purgative as well as a Tonic, possessing the peculiar merit of acting as a mild Aperient or Purgative, relieving Congestion or Inflammation of the Liver, and all the Internal Viscera.
FOR FEMALE COMPLAINTS, whether in youth or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Read for a woman's ailments.
THEY ARE NOT A VILE
FANCY DRINK,
Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.
For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.
DYSPEPSIA OR INDIGESTION.
Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.
They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.
FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.
Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.
PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.
